ROLLON GANTRY ROBOT BOOSTS TIRE BEAD PRODUCTION

Bartell Machinery Systems is a global manufacturer of highly engineered industrial manufacturing equipment for the tire and rubber, oil and gas and wire and cable industries. With more than 75 years in business and over 8,500 machine builds, the company now offers a variety of automatic transfer and storage systems, bead handling systems and bead measuring equipment. For the pick-and-place component in one of its machines serving the tire and rubber industry, Bartell specified a custom Y-Z gantry robot from Rollon Corp. This particular Bartell machine makes tire beads-steel cables coated in rubber and wound to a particular geometric shape.

The project Piattaforma India has been promoted by UCIMU – Association of Italian Machine Tools Manufacturers and AMAPLAST – Italian Plastics and Rubber Processing Machinery and Moulds Manufacturers Association. The two associations agreed on the idea that promoting a network of associations and entrepreneurs who have developed knowledge and experience on the Indian market, can be useful in favoring of new paths of development for business. The Indian companies who are interested to form JV, cooperation, technical tie up, purchase machinery etc from with Italian companies can contact below mentioned address for any assistance.
